

## Thoughts on Legacy Giving

### *A Note from a Long-Time Volunteer*

Dear Friends,

I've been involved with Neighbor Ride from its earliest years and am thrilled to be part of an organization that so directly meets the needs of our community's older residents. In addition to volunteering, I've tried to make annual financial contributions to Neighbor Ride. Recently, I took an even more significant step...

With the births of new grandchildren, it was time to make some changes to my will. While talking with my attorney about these changes, I also asked him about designating a specific amount of money to Neighbor Ride's Endowment Fund. This was easily accomplished and my children agreed it was a wonderful decision. I am not wealthy, but upon my death this legacy contribution will go into Neighbor Ride's Endowment Fund, which is invested and managed by The Community Foundation of Howard County. The income from that investment will help sustain Neighbor Ride for decades to come!

I just wanted to share this action and encourage passengers and volunteers to consider making a gift that goes well beyond our own lifetimes - touching the lives of countless seniors who will benefit from Neighbor Ride's transportation service in the future.

Fondly,

*A Neighbor Ride Volunteer*
